Scouting The Shops

with Sally

My Day—or to avoid copyright trouble, let's make it "Our Day."

1 p. m.—Editor tells us to get that &&'%½— column written. We dutifully start to concentrate. Just how should we adequately describe the lovely tomatoes at Westlake Market, the special picnic hams at Milo's, the feed bargains at Colma Pioneer Market?

2 p. m.—Still concentrating with the ad man merrily humming a sour tune, the janitor hitting our feet with a mop, and the circulation manager earnestly explaining his "static-electricity - controller" invention to us. We still haven't thought of enough adjectives to describe Beeson's efficient cleaning methods, Edwards Drug Store's accurate prescriptions or Miss Rose's excellent dance instruction.

3 p. m. — Mrs. Exxwyzee just dropped by and occupied an hour of our valuable (?) time telling us all about Junior's measles, just when we had a nice paragraph all doped out for the Daly City Cut Rate Market's fresh vegetable specials, the new butter at Robertson's Egg Store, Foster's Pharmacy opening, Byrne Radio's refrigerator bargain, Bosco's Red Wing Shoes, Farmer's Market and their new all-around service, Daly City Nursery's new plants in bloom and Geneva Bakery's lovely Italian baked goods. Oh, well!

4 p. m.—Lucca Ravioli's special food promotion was occupying our mind and our typewriter when in popped Cousin Elmer from Oshkosh—

8 p .m.—and the stars and moon keeping us company in our lonely vigil. Elmer didn't leave until five minutes ago. We sent him to the Hilltop Lodge. Now to get back to business. Let's see, Mather Brothers say Willys car sales are up 89 per cent, the Hillcrest Druids' whist is Monday, New Process Laundry returns linens like new, Vireno's Market has a liquor close-out sale, Hedy Lamarr is at the Daly City theatre, Stan's Standard Station gives away free prizes every week.

8:17 p. m.—"Say Sally," called the Make-Up Editor, "we've just made up the paper. Pretty full anyway. We won't need the column this week."

You see how it is, folks.

New Pharmacy Opens This Week

With stocks complete, and modern new fixtures installed throughout, Foster's Pharmacy formally opens this week at 7108 Mission street in the new Lagomarsino building.

Drugs, prescriptions, fountain service, sandwiches and novelties round out one of the most modern and complete pharmacies in the Bay Area. The store is streamlined throughout, both for service efficiency and lighting. Foster formerly operated his own store for many years at 401 Eddy street, San Francisco.

"This is a new field and we hope to serve it well," he said today.

"PLEASED TO MEETCHA"

—Photo By Durant Moseley

Above are shown members of the cast of the three-act comedy-mystery to be presented at the high school auditorium, this evening. Standing, left to right, are Muriel Hollingsworth, Charles Yonan, Roy DeVincenzi (stand-in for Al Marcucci), Pearl Daly, Ernest Collinge.

Seated, left to right, are Don Hertz, Julia Yonan, Evan Gillespie, Charlotte Weait, Eleanor Talbot and John McCann. Melvin Dykman, not shown, is also a member of the cast.

CCC Extended to 1943

Congress has extended the Civilian Conservation corps to June 30, 1943.

African Field Hockey

Field hockey's the thing with South African women and they will send a team to England to compete in international matches.

Hillcrest Druids Give Monster Whist

Madame Victorine Lombard and Mrs. Laura Pescaro will be chairmen of the monster whist which Hillcrest Circle No. 143, United Ancient Order of Druids, is sponsoring next Monday night, at Masonic hall.

"The prizes are really valuable," said Madame Lombard today. "The circle has worked very hard to secure a large number of attractive awards. In addition, there will be two cash prizes."

Playing is scheduled to begin at 8:45 p. m.

"If you have never before attended a Druid's whist," concluded Madame Lombard, "now is the time to discover what a good time you have been missing. We cordially invite the public to attend."

Desserts From Cans

By Frances Lee Barton

We all have canned fruit juices and fruits on our emergency shelves. Here are some recipes that will enable you to utilize these cans and prepare novel, delicious tasties at any time:

Canned Fruit Tapioca

2½ cups canned fruit juice and water; 4 tablespoons quick-cooking tapioca; ½ cup sugar; ¼ teaspoon salt; 1 to 1½ cups prepared canned fruit; 1 to 3 tablespoons lemon juice.

Combine fruit juice and water, tapioca, sugar, and salt in saucepan and mix well. Bring mixture quickly to a full boil over direct heat, stirring constantly. Remove from fire. (Mixture will be thin. Do not overcook.) Add fruit and lemon juice. Cool, stirring occasionally — mixture thickens as it cools. Chill. Serve in sherbet glasses with plain or whipped cream. Serves 6 to 8.

For Apricot, Plum, or Prune Tapioca, use 1½ cups diced canned fruit and 1 tablespoon lemon juice.

For Pineapple or Raspberry Tapioca, use 1 cup canned crushed pineapple or canned red raspberries and 1 tablespoon lemon juice.

For Peach Tapioca, use 1½ cups diced canned peaches and 2 tablespoons lemon juice.

For Cherry Tapioca, use 1½ cups canned seeded red cherries.

Girl Telephone Employees

The telephone company states that although male operators were used when switchboards were first put into service, it was soon found that the temperaments of men were not suited to such work, so in a comparatively short time they were replaced by girls. Since that time it has been the policy of companies to employ only girls.

Early Soil Conservation

One of the earliest suggestions of soil conservation in Massachusetts was an act of the general court in 1739, forbidding farmers to turn their live stock loose to feed on the meadows between Truro and Provincetown. Horses and cattle had eaten so much of the beach grass that the sand dunes were heading toward the meadow land.

5,000 Years in 10

Although it's one of the world's oldest industries, glass making has developed more in the past 10 years than in the previous 5,000.

Gift Booklet for Brides to Be

A supply of Virginia Courtenay's latest Bride Booklet has just been received at this office.

The bride of 1940 will find many helpful suggestions and intimate chit-chat on important subjects; each one may have a copy of this interesting booklet as long as the supply lasts.

HAVE THEY HEARD ...HE MARRIED AN *Angel!*

To be certain they do hear this happy news, send Art Point specially processed Wedding Announcements ... a thoughtful gesture which will be warmly appreciated by your friends. Inexpensive ... modern ... impressive.

Ask us for your gift copy of "So You're Going to Be Married" ... a clever little booklet containing treasured bits of information that the bride-to-be will cherish always.

3317 San Jose Ave.

Netherlands Defensive Flooding

If the dykes in the Netherlands are open, defense flooding would damage the farm lands, and necessitate the evacuation of thousands of residents, but the water would not be sea water, it would be fresh water from the rivers, or the old Zuyder Zee, now called Ijssel lake. It would do no permanent harm.

Valuable Copper Sludge

Precious metals are recovered from the sludge of copper refineries, says Industrial and Engineering Chemistry. Cadmium is a by-product of zinc smelting. Selenium, now widely used in making ruby-colored glass, was once a waste of copper refineries, and antimonial lead is produced by working up the scum from softening furnaces in lead refining.

Hatless Fad Not New

The hatless fad, which was at its height in '32 and '33, was neither new nor collegiate. It dated back before the American Revolution to the time when English dandies carried their hats in their hands to avoid mussing their curled and powdered wigs.

We'd Hold Our Head Too!

If we had to worry about getting that expensive living room rug cleaned—that is, we'd worry if we didn't know about

MIRZA

The magic word that means so much to the life and beauty of your floor coverings and rugs. Only MIRZA cleans rugs on a curved surface. Only MIRZA de-moths as it cleans your finest Oriental rugs . . . America's finest rug service.

Freshly Churned Butter Offered At Robertson's

Robertson's Egg store this week offers the Daly City shopping public a new butter, which is sold in the store the day after being churned. The butter sells for the same price as other popular brands, according to A. R. Robertson, proprietor.

Robertson's is located at 9 Hillcrest drive.

Dorothy Langensand Wins Public Acclaim

Little Dorothy Langensand is only seven years old but she is already an expert dancer. She has made many public appearances and two years ago was Queen of the May in San Francisco and Daly City.

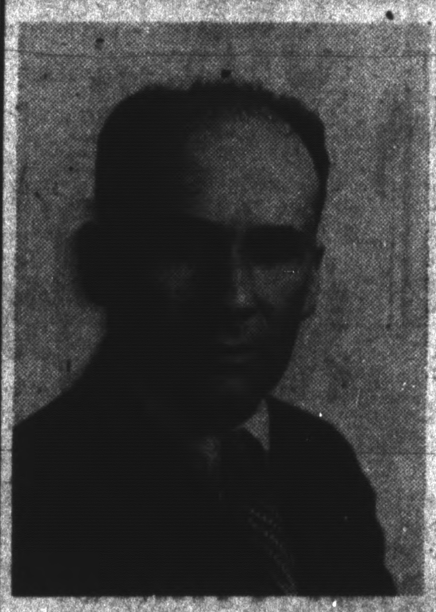
Dorothy (whose picture may be found on page 4 of this issue) is the daughter of Mr. and Mrs. Peter Langensand, 427 Templeton avenue, and has been taking dancing lessons for the past four years.

"She can do toe, ballet and tap toe dancing," said her teacher, Miss Rose, today. "This is very unusual in a child of her age."

Dorothy attends Our Lady of Perpetual Help school and is a member of the Daly City Juvenile Drum corps which meets every Tuesday at Miss Rose's studio, 876 Brunswick street.

Washington's Farewell Address

Washington's "Farewell Address" was written primarily to eliminate himself as a candidate for a third term. It was never read by the President in public, but printed in Claypoole's American Daily Advertiser, Philadelphia, September 19, 1796. The address is in two parts. In the first Washington definitely declines a third term, gives reasons, and acknowledges a debt of gratitude for the honors conferred upon him and for the confident support of the people. In the second, more important part, he presents, as a result of his experience and as a last legacy of advice, thoughts upon the government.



So The People May Know

!What Goes On Here!

Recently a leaflet was sent to most of the citizens of Daly City stating that the City Engineer's office is and has been in a turmoil and that it was proposed to stop this turmoil. As I was not running for office I waited until now to present to you, the people of Daly City, the following facts which with little trouble may be checked as to their veracity.

It may be that the following are some of the happenings that have caused this so-called turmoil.

1. Since January 1st, I have been buying gasoline from the Union Oil and the Rio Grande (Standard middle grade equal to 76 and same as had been purchased before at Twelve and a half cents a gallon.) After a call for informal bids I have been buying same at ten and three-tenths cents or a saving of $65.00 per month.

2. Since November I have been buying oil equal in viscosity and quality as before, for forty-three cents per gallon when the price paid before was about seventy cents per gallon or a monthly saving of about fifteen dollars.

3. Recently I purchased five hundred feet of two and a half inch fire hose for sixty five cents a foot, exactly the same specifications for which the last purchase was made at one dollar and ten cents a foot, or a saving on this purchase of two hundred and seventy-five dollars.

4. Since November I have been purchasing emulsified asphalt for the work being done on the streets cracks at six and a quarter cents a gallon, equal to the former price of seven and a quarter per gallon, a saving of about nine dollars per month.

5. I found houses completed and ready to rent without a building permit having been issued.

6. I applied to the State Motor Vehicle for three thousand dollars from the quarter-cent gas tax and was allowed same for the repair of street cracks on major streets, this work has been done during the last year from general funds.

7. I filed with Works Progress Administration at Washington a project for the work on the south end and was granted from government funds at no cost to Daly City one hundred and seventy eight thousand dollars.

8. During the last year under my direct supervision we have completed the bleachers and playing field at the lower section of the Vista Grande Park, the tennis court at the Acton Park, the new modern pound, the double nailing of the roofs at the reservoirs number one and two and the recent wind storms proved that this procedure would have saved you money by preventing your several reservoir roofs that have been blown away.

It is my honest belief and conviction that you people want efficiency, honesty, and experience in your various city positions, somebody that has been employed by the Department of the Interior under Mr. Ickes for five years, with the City of San Francisco under civil service for two years, with Stone and Webster for two years, with the engineering department of Los Angeles for three years, with the engineering department of the Union Oil for four years.

It is not the purpose of these statements to start endless discussions, but is a simple statement of facts so that you may judge what this so-called turmoil is. I do not ask you to believe me but just ask the various business men with whom I have been in contact during the last year here in Daly City, such as Shannon Hardware, Boni Hardware, Stockton Lumber, Smith Lumber, Merrit Electric, Hopman Electric, Harrison Plumbing, Pfeifer Plumbing, National Auto, California Auto, Mr. Garibaldi, Mr. Sarto, and Paul Marchi.

JULIUS F. CASTELAN,
City Engineer.

Salmon Pies Are Seasonable

By Frances Lee Barton

SALMON pies are seasonable — and good too. Here is a recipe that does not call for a single item that cannot be obtained at the corner store. In fact you probably have everything on hand without ordering — so why not try this delicious salmon pie today?

Salmon Pie

1 cup diced celery; ½ cup boiling water; 2 cups flaked canned salmon; ¼ teaspoon salt; dash of pepper; 1 tablespoon minced onion; ½ cup milk; 1 tablespoon melted butter.

1 cup sifted flour; 1 teaspoon double-acting baking powder; ¼ teaspoon salt; 3 tablespoons butter or other shortening; 6 tablespoons milk (about).

Parboil celery in water 5 minutes, or until slightly tender. Combine with salmon, salt, pepper, onion, milk, and melted butter. Turn into greased 9-inch pie plate.

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening. Add milk gradually, stirring until soft dough is formed. Turn out on slightly floured board and knead 30 seconds, or enough to shape. Roll dough ¼ inch thick; with sharp knife make slits to permit escape of steam. Fit over salmon, pressing edge of dough and pie plate together with floured fork. Bake in hot oven (450° F.) 30 minutes. Serves 6.

Pulpwood Leads

Pulpwood continues to be the most important forest product in Canada, having a value in 1937 of more than $68,000,000.

'A Dog's Tale'

Mark Twain's "A Dog's Tale" was first published in Harper's magazine in December, 1903. Subsequently it was privately printed by the National Anti-Vivisection society. In 1904 Harper's brought out the story in book form.

Largest Underground Canal

The world's largest underground canal flows from the port of Marseilles in France to the Port de Bone, and is 4½ miles long, and has a width of 72 feet.

Chewing Gum Base

The basic gum entering into the manufacture of chewing gum is chicle obtained by coagulating the milk, or latex, of the Sapota tree of Central America.

Money in Your Pocket

You don't have to shoot the bill collector or put in a new furnace to save on your winter fuel bill. Scientists of a major glass company have found that savings up to 30 per cent can be obtained by "window-conditioning" a house with storm sash.

World's Largest Telescope

The total cost of the largest telescope in the world at Pasadena, Calif., will be around $12,000,000.

Cooks Are Cooking Cookies

By Frances Lee Barton

COOKS are cooking cookies when the frost is in the air. Or perhaps the word is "baking." Confidentially, I don't care. I only know that cookies are now munched 'most everywhere, and the little tip below will assure your friends their share:

Coconut Orange Cookies

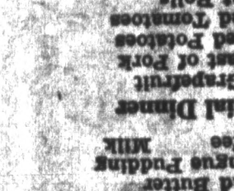
2 cups sifted cake flour; 2¼ teaspoons double-acting baking powder; ½ teaspoon salt; 1 teaspoon cinnamon; 1 cup oatmeal; 1 cup butter or other shortening; 4 teaspoons grated orange rind; 1½ cups sugar; 2 eggs, unbeaten; ¾ cup shredded coconut; 4 tablespoons milk.

Sift flour once, measure, add baking powder, salt, and cinnamon, and sift together three times. Add oatmeal. Cream butter and orange rind thoroughly, add sugar gradually, and cream together until light and fluffy. Add eggs, one at a time, beating well after each egg; then coconut and blend. Add flour, alternately with milk, a small amount at a time, mixing thoroughly after each addition. Drop from teaspoon on ungreased baking sheet, placing far apart. Bake in hot oven (400° F.) 10 to 12 minutes, or until done. Makes 4 dozen cookies.

Here's A New Cake

By Frances Lee Barton

PLACE one hundred and twenty-eight square inches of this sugar crumb coffee cake before your family and watch the faces light up. Sounds like a big cake, doesn't it? Well! It only requires an 8 x 8 x 2-inch pan, at that.



Sugar Crumb Coffee Cake

1¼ cups sifted cake flour; 1½ teaspoons double-acting baking powder; ¼ teaspoon salt; 3 tablespoons butter or other shortening; ⅔ cup sugar; 1 egg, unbeaten; 5 tablespoons milk; 1½ tablespoons butter; 4 tablespoons cake flour; 2 tablespoons confectioner's sugar; dash of salt; ¼ teaspoon cinnamon; few drops of almond extract; ¼ cup chopped walnut meats.

Sift flour once, measure, add baking powder and salt, and sift again. Cream butter, add sugar gradually, creaming well. Add egg and beat until light and fluffy. Add flour, alternately with milk, a small amount at a time. Beat after each addition. Turn into greased 8 x 8 x 2-inch pan. Cream butter well. Sift together flour, sugar, salt, and cinnamon; add to butter. Add almond extract and nuts and blend. Sprinkle over cake mixture. Bake in moderate oven (350° F.) 30 minutes, or until done. Serve warm.

Or bake in greased deep 9-inch layer pan in moderate oven (375° F.) 25 minutes, or until done.

Synthetic Koroseal

Electric transmission cables coated with a new synthetic called koroseal have been found capable of resisting the destructive ravages of the extremely corrosive gas, ozone, for periods as long as three years. Cables coated with ordinary insulating material are eaten through by ozone in three seconds.

The Mermaid Silhouette

For those mermaid curves so popular now, try a knitted "huggie" with a frontal zipper, as worn here by CBS' fetching Toni Gilman. It's available in a number of color combinations and the rough tweedy texture makes it most appropriate for outdoor and country wear.

Wild Flowers on Rainier

A total of 556 varieties of wildflowers bloom on the alpine meadows of Mt. Rainier, three-mile-high snow peak in Washington state.

Hog Cash Income

The cash income of American hog growers last year from hogs, pork and lard amounted to $902,525,000—about double that of 1932.

106 Miles of Tunnels

Tunnels aggregating 108 miles in length are part of the giant aqueduct which will carry Colorado river water to Los Angeles. The cost will be $220,000,000.

U. S. Highest Lake

The highest lake in the United States having an area greater than one-tenth of a square mile, is Tulainyo, 1½ miles northeast of Mount Whitney, Calif. It has an elevation of 12,865 feet.

Bok Peace Award

In 1923 Edward Bok, the philanthropist, founded the American Peace award, offering $100,000 for the most practicable plan to establish and preserve the peace of the world.

First White Visitor

On March 6, 1521, Ferdinand Magellan, the first white man to go to the South Sea islands, landed on Guam, the southernmost island of the Marianas group.

"I TAKE THIS WOMAN" NOW PLAYING AT DALY CITY THEATRE HAS NEW TEAM

A new and interesting romantic team makes its screen bow in "I Take This Woman," which opened yesterday at the Daly City theatre. The combination comprises Spencer Tracy and Hedy Lamarr and the teaming of these two distinct personalities is successful because of a story which is ideal for such a blending of talent.

The glamorous Miss Lamarr appears to be an actress who is best suited to torrid love scenes with great lovers of the screen, while Tracy's characterizations have always been rugged heroes who approach romance from other than passion angles. But two such opposites are skilfully united in "I Take This Woman" and the co-starring of them in a romantic theme is intriguing.

Tracy plays a physician, an earnest scientist doing great work in a tenement clinic. Miss Lamarr is a beautiful society girl who, after a romance is wrecked, finds ultimate happiness and a place in life's scheme at the doctor's side. Her role calls for much compelling emotional acting. Tracy gives one of the most powerful characterizations of his career as the man who blindly worships a lovely woman and is ready to sacrifice his career on the altar of happiness.

Companion feature is "Legion of the Lawless," starring George O'Brien.

Spencer Tracy and Hedy Lamarr in "I Take This Woman"

World's Greatest Housekeeper

Probably the world's greatest housekeeper is the Pullman company which in a single year purchased 220,826 sheets, 157,780 pillow cases, 20,258 tidies, 455,829 hand towels, 24,818 headrest covers, 12,092 napkins, and 3,260 table cloths, the Association of American Railroads reports.

Insulation Terms Defined

"Fully insulated" and "completely insulated" are two terms frequently misused, FHA officials say. "Fully insulated" means that the house is equipped with both wall and roof—or top-floor ceiling—insulation. Both new and already-built houses may be "fully insulated."

Probating Wills

It is necessary that any will which is produced must be probated. This is for the double purpose of protecting the wishes of the deceased and the rights of his declared heirs. It also assures that any government taxes will be paid.

London's Autumn Flowers

In the countryside around London in the fall can be found Heather and Willow Herb in flower, Travelers Joy in the Hedgerows, Convolvulus, Teazles, Ivy in bloom, and plenty of blackberries and nuts for the gathering.

Fish and Soap Chips

Charles Paxton, Sweetwater, Texas, Boy Scout leader, volunteered to fry some fish for a camp supper. He dressed them and rolled them in meal, but something was wrong. A "tenderfoot" friend discovered that Paxton had "mealed" the fish in soap chips.

Stockings for a Queen

Weaving is one of the oldest arts, but knitting was not discovered until about 1400. Some 200 years later, Rev. William Lee of Nottingham, England, invented a knitting machine. He knit a pair of stockings for Queen Elizabeth but she was reported as disappointed because they were coarse. Rev. Lee then perfected a new machine, and knit the queen a pair of silk stockings.

U. S. Leads in Chemistry

Prof. E. J. Crane of Ohio State university, editor of Chemical Abstracts, has reported that the United States leads the world in chemistry. Germany has dropped to third place and Great Britain to second. Professor Crane's report is based on an analysis of 65,000 chemical discoveries.

Arbitrary Date Line

The International Date Line is an irregular line which is drawn somewhat arbitrarily on the map of the Pacific ocean, near the 180th meridian of longitude. This line marks the place where navigators "change their date" on the trans-Pacific voyage. The line is drawn on the map in a general north-and-south direction, separating the islands of the Pacific ocean in such a manner that all those in the east carry the same date as the United States, and those in the west the same date as Japan and Australia.

Shanghai Child Refugees

Smiling for the first time in months, 400 child refugees in Shanghai were transferred to Chekiang province where they are beginning life anew.

Here's a Breakfast Treat From Hawaii

By BETTY BARCLAY

Tangy canned Hawaiian pineapple gems, inch squares of liver and bacon served on brochette atop a stack of golden brown griddle cakes will do a great deal to enliven breakfast appetites.

Gasoline Taxes

American motorists paid more than $7,000,000,000 in gasoline taxes in 19 years after the first tax of this kind was levied. This is almost as much as the federal government requires for one year's running expenses.

Tomato-Growing Champion

Lynchburg, Va., where Thomas Jefferson taught the public that the tomato was good to eat, now boasts a tomato-growing champion. W. E. Martin, the champ, produced a tomato plant which grew to a height of 12 feet in his back yard.

Men's Tennis Socks

A boom in the sale of men's tennis socks is due to the "discovery of young men that their girl friends like a uniform," according to the Wholesale Textile association, of London.
